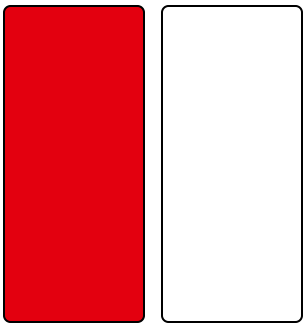
Color test: which pen is which number?

For pens without numbers, or any other brand. Color each empty box with the pen that comes closest to the swatch on its left, and write down which pen it was. Then keep this sheet next to the book while you color.

Left: roughly what the color looks like (screens and printers vary a little). Right: your pen.

1 Red



Pen 68: 48

My pen: _____

2 Yellow
